

DESIGN GUIDELINES  
Front and Side Yard  
Landscaping Design

**2. Multi-Family Attached Products**

Formal entry monuments and walls may frame the drive into the motor court area. Basic driveways and alleys are asphalt pavement which may have enhanced paving and/or decorative water features or sculptural elements may accent the products. Water features, parterre gardens and other garden elements may decorate the common space within and around the multi-family residences, creating a sense of place.
